THE ULTIMATE MULTI-SURFACE OUTDOOR CLEANER

ACTIVATE is the easiest and most effective way to clean moss, mould, algae, lichen and the general build up of dirt from block paving and external areas. The special formula reactivates when it rains so it will continue to work for a length of time after application, helping to prevent the regrowth of moss and weeds. To maintain the treated area a regular application is recommended which will prevent the regrowth of moss, algae and weeds all year round.

READ BEFORE USE: The formula of ACTIVATE is a strong product and must be used with caution, especially near plants and vegetation. It is harmful to fish and aquatic organisms.

Avoid contact with eyes and skin. Wear suitable protective clothing and gloves.

APPLICATION: It is recommended you scrape away any thick moss before application and remove any foliage, rubbish or dirt. Apply on a dry day when rain is not expected.

FOR BEST RESULTS APPLY NEAT and saturate the surfaces, applying in a controlled manner using a **garden sprayer** (or a watering can - with watering can the coverage will be less).

Once applied just simply leave it to work it's magic. You should start seeing the results within 15 minutes. Severely affected areas may need a secondary diluted application.

Any over spray on plants or grass simply wash with water.

Keep animals off treated surfaces until completely dry (approx 5 hours).

COVERAGE	NEAT
5 litres	12-15m²

IF DILUTING	Product	Water
Maintenance	1 part	6 parts
Light growth	1 part	3 parts

CLEAN UP: Wash any equipment used with soapy water and DO NOT empty any left over liquid in to natural watercourses.

COVERAGE: Neat, 1 litre - 3m² of affected area should be adequate but this will vary dependent on how severely affected the area is.

MAINTENANCE: ACTIVATE is recommended to be used as part of a regular maintenance application to prevent the regrowth of moss, mould, algae and lichen and to keep the areas clean.

STORAGE: Out of direct sunlight in a cool shaded area. Use within 12 months of purchase for best results.

Contains Sodium Hypochlorite

PRECAUTIONS:

- KEEP IN A SAFE PLACE with container tightly closed
- Keep in original container
- Keep out of reach of children
- If swallowed, drink plenty of water and seek medical advice immediately, DON'T INDUCE VOMITING
